Dear Stoyko Stoev,

Thank you for participating in *Algorithms, Part I*. We hope that you enjoyed the experience as much as we did! We very much appreciate the energy and enthusiasm that this community brought to the learning experience. We are especially grateful to the Community TAs who patiently and promptly answered so many questions in the discussion forums.

We hope that we'll see many of you again in [Algorithms, Part II](#). Now that you've learned the fundamentals, you're ready to explore a whole new range of ingenious algorithms for graph and string processing that are playing a critical role in applications of computing today.
